

AirFlex

An air suspended mat that has grip.

AirFlex provides multiple health and comfort benefits for the worker. Interlocking edges ensure the mats fit tightly together. It's stud top surface works as anti-slip matting while the studded underside provides cushioning to take the pressure off your feet, legs, and back.

Applications

Dairy pit, work station, great traction mat for people and light weight animals such as sheep or young cattle

Properties

Made from recycled rubber using a unique vulcanisation process. Fully sealed and won't hold moisture or bacteria.

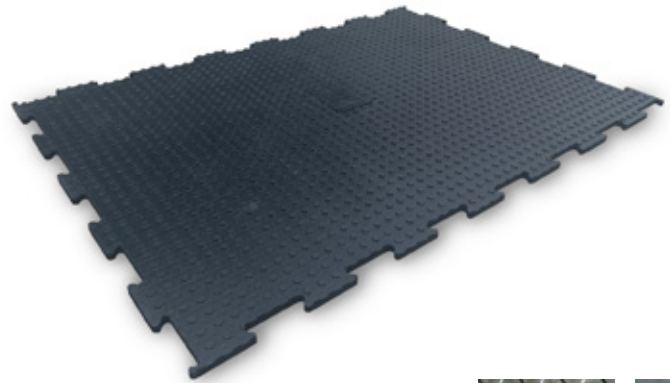

Slip Resistant

Recycled Rubber

Fatigue Relief

Specifications

Features

- Easy and simple DIY installation
- Easy to clean surface pattern
- Strategically positioned studs create air-cushioned comfort
- Unique flexible interlocking system

Strengths

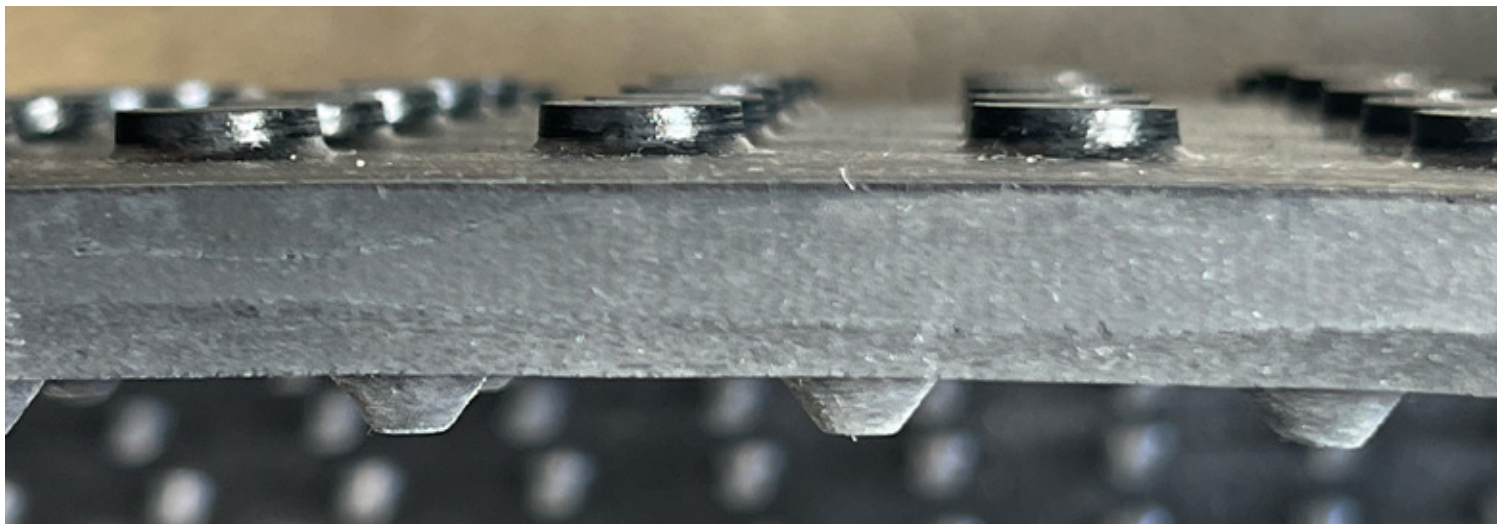

- Prevents tendon and joint stress
- Offers excellent traction
- Reduces slipping and falls

Dimensions

Length: 1183mm
